Subject index

A

Abstracts
Abstracts. 1986; 90:174-6, 264-5, 354-6, 443-5, 522

Adolescent
A polynomial approach to craniofacial growth: description and comparison of adolescent males with normal occlusion and those with untreated Class II malocclusion (Buschang et al). 1986; 90:437-42
Profile changes in the child and young adolescent (Hoskin). 1986; 90:356 (Abst.)

Adult
Three-dimensional CT reconstructions of tongue and airway in adult subjects with obstructive sleep apnea (Lowe et al). 1986; 90:364-74
Transalveolar transplantation of maxillary canines: an alternative to orthodontic treatement in adult patients (Sagne et al). 1986; 90:149-57

Advancement surgery
Maxillary growth following LeFort III advancement surgery in Crouzon, Apert, and Pfeiffer syndromes (Bachmayer et al). 1986; 90:420-30

Agenesis
Prevalence of tooth agenesis correlated with jaw relationship and dental crowding (Dermaut et al). 1986; 90:204-10

Airway
Three-dimensional CT reconstructions of tongue and airway in adult subjects with obstructive sleep apnea (Lowe et al). 1986; 90:364-74

Alloy wire
The super-elastic property of the Japanese NiTi alloy wire for use in orthodontics (Miura et al). 1986; 90:1-10

Alveolar bone
Effects of orthodontic tooth movement on the distribution of glycosaminoglycans of the alveolar bone of the rat: a histochemical study (Martinez and Johnson). 1986; 90:174-5 (Abst.)
Maxillary arch expansion in cleft lip and palate infants prior to autogenous alveolar bone graft surgery (Jones et al). 1986; 90:264 (Abst.)

American Association of Orthodontists
The AAO future plan. 1986; 90:451-3 (AAO)
Awards. 1986; 90:350-3
Directory of officers and organizations. 1986; 90:90, 180, 270, 360, 450, 528

American Board of Orthodontics
American Board of Orthodontics. 1986; 90:81, 168-70, 519-20

Anatomy
Clinical anatomy for dentistry (Longmore and McRae). 1986; 90:264 (Book rev.)

ANB angle
Floating norms for the ANB angle as guidance for clinical considerations (Jarvinen). 1986; 90:383-7

Angle
Floating norms for the ANB angle as guidance for clinical considerations (Jarvinen). 1986; 90:383-7
Reproducibility of rotational panoramic radiography: mandibular linear dimensions and angles (Larheim and Svanaes). 1986; 90:45-51

Ankylosis
A jaw exercise for fibrous ankylosis of the temporomandibular joint (Darveniza and Chapman). 1986; 90:354 (Abst.)

Anterior crossbite
Role of parental variables in predicting facial growth after treatment of anterior crossbite (Nakasima and Ichinose). 1986; 90:492-500

Anterior teeth
The center of resistance of anterior teeth during intrusion using the laser reflection technique and holographic interferometry (Vanden Bulcke et al). 1986; 90:211-20

Anxiety
Dentists' perceptions of their patients' anxiety (Schaub and Giddon). 1986; 90:265 (Abst.)

Apert syndrome
Maxillary growth following LeFort III advancement surgery in Crouzon, Apert, and Pfeiffer syndromes (Bachmayer et al). 1986; 90:420-30

Apical root
Apical root resorption of upper incisors caused by intrusive tooth movement: a radiographic study (Dermaut and De Munck). 1986; 90:321-6

Apnea
Facial morphology and obstructive sleep apnea (Lowe et al). 1986; 90:484-91
Three-dimensional CT reconstructions of tongue and airway in adult subjects with obstructive sleep apnea (Lowe et al). 1986; 90:364-74

Appliance
Atlas of orthodontic appliances: fixed and removable (Tenti). 1986; 90:521 (Book rev.)
The effect of treatment with functional appliance on a pathologic growth pattern of the condyle (Melsen et al). 1986; 90:503-12 (Case rep.)
Hybrid appliances: a component approach to dentofacial orthopedics (Vig and Vig). 1986; 90:273-85

Arch
Maxillary arch expansion in cleft lip and palate infants prior to autogenous alveolar bone graft surgery (Jones et al). 1986; 90:264 (Abst.)

Arch wire
A comparison of friction forces during simulated canine retraction of a continuous edgewise arch wire (Garner et al). 1986; 90:199-203

July, pp. 1-90; August, pp. 91-180; September, pp. 181-270; October, pp. 271-360; November, pp. 361-450; December, pp. 451-544.

Arthrosis
TMJ internal derangement and arthrosis: surgical atlas (Dolwick and Sanders). 1986; 90:521 (Book rev.)
Articular disc
Relationship of the muscles of mastication to the articular disc of the temporomandibular joint (Meyenberg et al). 1986; 90:522 (Abst.)
Articulator
Simple hinge and semiadjustable articulators in orthognathic surgery (Marko). 1986; 90:37-44
Assessment
Reproducibility of rotational panoramic radiography: mandibular linear dimensions and angles (Larheim and Svanaes). 1986; 90:45-51
Asymmetric space closure
Asymmetric space closure (Gianelly et al). 1986; 90:335-41 (Clin. corner)
Atlas
Atlas of orthodontic appliances: fixed and removable (Tenti). 1986; 90:521 (Book rev.)
TMJ internal derangement and arthrosis: surgical atlas (Dolwick and Sanders). 1986; 90:521 (Book rev.)
Autotransplantation
Autotransplantation of cryopreserved tooth in connection with orthodontic treatment (Schwartz and Rank). 1986; 90:67-72 (Case rep.)

B

Bacteremia
Toothbrushing and transient bacteremia in patients undergoing orthodontic treatment (Chung et al). 1986; 90:181-7
Bacteria
Glass bead sterilization of orthodontic bands (Smith). 1986; 90:243-9
Banding
Glass bead sterilization of orthodontic bands (Smith). 1986; 90:243-9
The importance of banding the second permanent molars (Andreasen). 1986; 90:501-2 (Clin. corner)
Basilar multiplane cephalometric analysis
Basilar multiplane cephalometric analysis (Remmelink) (Letter). 1986; 90:84-85
Bead
Glass bead sterilization of orthodontic bands (Smith). 1986; 90:243-9
Begg treatment
A cephalometric appraisal of nonextraction Begg treatment of Class II malocclusions (Meistrell et al). 1986; 90:286-95
Blind persons
Craniocervical postural relations and craniofacial morphology in 30 blind subjects (Fjellvang and Solow). 1986; 90:327-34
Bonding
Direct bonding comparing a polyacrylic acid and a phosphoric acid technique (Farquhar). 1986; 90:187-94
The effect of fluoride in phosphoric acid on enamel fluoride uptake and the tensile bond strength of an orthodontic bonding resin (Thornton et al). 1986; 90:91-105
Bone
Biochemical aspects of orthodontic tooth movement (Shanfeld et al). 1986; 90:139-48
Effects of orthodontic tooth movement on the distribution of glycosaminoglycans of the alveolar bone of the rat: a histochemical study (Martinez and Johnson). 1986; 90:174-5 (Abst.)
Maxillary arch expansion in cleft lip and palate infants prior to autogenous alveolar bone graft surgery (Jones et al). 1986; 90:264 (Abst.)
Book reviews
Book reviews. 1986; 90:87, 173-4, 264, 443, 521-2
Business principles
Business principles in an orthodontic practice. Part I (Shia). 1986; 90:253-61
Business principles in an orthodontic practice. Part II (Shia). 1986; 90:513-8

C

Canine
Transalveolar transplantation of maxillary canines: an alternative to orthodontic treatment in adult patients (Sagne et al). 1986; 90:149-57
Cartilage
Growth and growth pressure of mandibular condylar and some primary cartilages of the rat in vitro (Copray et al). 1986; 90:19-28
Center of resistance
Analysis of moment/force ratios in the mechanics of tooth movement (Kusy and Tulloch). 1986; 90:127-31
The center of resistance of anterior teeth during intrusion using the laser reflection technique and holographic interferometry (Vanden Bulcke et al). 1986; 90:211-20
Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36
Center of rotation
Analysis of moment/force ratios in the mechanics of tooth movement (Kusy and Tulloch). 1986; 90:127-31
Cephalometrics
Basilar multiplane cephalometric analysis (Remmelink) (Letter). 1986; 90:84-85
A cephalometric appraisal of nonextraction Begg treatment of Class II malocclusions (Meistrell et al). 1986; 90:286-95
A cephalometric study of mandibular changes in modified function regulator (Fränkel) treatment (Haynes). 1986; 90:308-20
Craniofacial growth data for cleft lip patients infancy to 6 years of age: potential applications (Friede et al). 1986; 90:388-409
Floating norms for the ANB angle as guidance for clinical considerations (Jarvinen). 1986; 90:383-7
Genetic and environmental factors in the development of so-called pseudo-and true mesioclusions (Nakasima et al). 1986; 90:106-16
Scattered radiation grids in cephalometric radiography (Price). 1986; 90:431-6
Soft-tissue profile: fallacies of hard-tissue standards in treatment planning (Park and Burstone). 1986; 90:52-62
Child
Changes in neuromuscular reflexes in the masseter muscles during functional jaw orthopedic treatment in children (Carels and van Steenberghe). 1986; 90:410-9
Craniofacial growth data for cleft lip patients infancy to 6 years of age: potential applications (Friede et al). 1986; 90:388-409
Profile changes in the child and young adolescent (Hoskin). 1986; 90:356 (Abst.)
A review of tooth formation in children with cleft lip/palate (Ranta). 1986; 90:11-8

Chin cup
The effect of chin cup therapy on the growth and development of the cranial base and midface (Ritucci and Nanda). 1986; 90:475-83

Chincap force
Effects of chincap force on the timing and amount of mandibular growth associated with anterior reversed occlusion (Class III malocclusion) during puberty (Mitani and Fukazawa). 1986; 90:454-63

Class II malocclusion
An American Board of Orthodontics case report (Zizza). 1986; 90:342-9 (Case rep.)
A cephalometric appraisal of nonextraction Begg treatment of Class II malocclusions (Meistrell et al). 1986; 90:286-95
A polynomial approach to craniofacial growth: description and comparison of adolescent males with normal occlusion and those with untreated Class II malocclusion (Buschang et al). 1986; 90:437-42

Class III malocclusion
Effects of chincap force on the timing and amount of mandibular growth associated with anterior reversed occlusion (Class III malocclusion) during puberty (Mitani and Fukazawa). 1986; 90:454-63

Cleft lip/palate
Cleft lip and palate: The orthodontist's youngest patient (Jacobson and Rosenstein). 1986; 90:63-6 (Clin. corner)
Craniofacial growth data for cleft lip patients infancy to 6 years of age: potential applications (Friede et al). 1986; 90:388-409
Early treatment of cleft lip and palate: proceedings of the Third International Symposium. 1986; 90:443 (Book rev.)
Maxillary arch expansion in cleft lip and palate infants prior to autogenous alveolar bone graft surgery (Jones et al). 1986; 90:264 (Abst.)
A review of tooth formation in children with cleft lip/palate (Ranta). 1986; 90:11-8

Clinicians' corner
Clinicians' corner. 1986; 90:63-6, 335-41, 501-2

Closure
Asymmetric space closure (Gianelly et al). 1986; 90:335-41 (Clin. corner)

Computed tomography
Three-dimensional CT reconstructions of tongue and airway in adult subjects with obstructive sleep apnea (Lowe et al). 1986; 90:364-74

Computer-assisted instruction
Development and evaluation of a CAI tutorial in the basics of mixed dentition analysis (Irvine). 1986; 90:175-6 (Abst.)

Condyle
The effect of treatment with functional appliance on a pathologic growth pattern of the condyle (Melsen et al). 1986; 90:503-12 (Case rep.)
Growth and growth pressure of mandibular condylar and some primary cartilages of the rat in vitro (Copray et al). 1986; 90:19-28
Tooth wear and condylar morphology (Owen et al). 1986; 90:444 (Abst.)

Consent
Informed consent (Pracht). 1986; 90:73-7

Contacts
Changes in tooth contacts following orthodontic treatment (Durbin and Sadowsky). 1986; 90:375-82

Craniocervical postural relations
Craniocervical postural relations and craniofacial morphology in 30 blind subjects (Fjellvang and Solow). 1986; 90:327-34

Craniofacial factors
Craniofacial growth data for cleft lip patients infancy to 6 years of age: potential applications (Friede et al). 1986; 90:388-409
Craniocervical postural relations and craniofacial morphology in 30 blind subjects (Fjellvang and Solow). 1986; 90:327-34
A polynomial approach to craniofacial growth: description and comparison of adolescent males with normal occlusion and those with untreated Class II malocclusion (Buschang et al). 1986; 90:437-42

Cranium
The effect of chin cup therapy on the growth and development of the cranial base and midface (Ritucci and Nanda). 1986; 90:475-83

Crossbite
Role of parental variables in predicting facial growth after treatment of anterior crossbite (Nakasima and Ichinose). 1986; 90:492-500

Crouzon syndrome
Maxillary growth following LeFort III advancement surgery in Crouzon, Apert, and Pfeiffer syndromes (Bachmayer et al). 1986; 90:420-30

Crowding
Prevalence of tooth agenesis correlated with jaw relationship and dental crowding (Dermaut et al). 1986; 90:204-10

Cryopreservation
Autotransplantation of cryopreserved tooth in connection with orthodontic treatment (Schwartz and Rank). 1986; 90:67-72 (Case rep.)

Crystal growth
Direct bonding comparing a polyacrylic acid and a phosphoric acid technique (Farquhar). 1986; 90:187-94

Curriculum
The Pew Foundation grant and the deregulation of the dental curriculum (Di Paolo). 1986; 90:262-3 (Guest editorial)

Cyclic nucleotide
Biochemical aspects of orthodontic tooth movement (Shanfeld et al). 1986; 90:139-48

D

Das diagnostische set-up
Das diagnostische set-up (Vardimon). 1986; 90:354-5 (Abst.)

Decalcification
The effect of fluoride in phosphoric acid on enamel fluoride uptake and the tensile bond strength of an orthodontic bonding resin (Thornton et al). 1986; 90:91-105

Das diagnostische set-up
Das diagnostische set-up (Vardimon). 1986; 90:354-5 (Abst.)

Diameters
Changes in diameters and mineralization patterns of extrinsic (Sharpey's) fiber of the interdental septum during orthodontic tooth movement (Martinez and Johnson). 1986; 90:174 (Abst.)

Disc
Relationship of the muscles of mastication to the articular disc of the temporomandibular joint (Meyenberg et al). 1986; 90:522 (Abst.)

Disinfection
Sterilization and disinfection in the orthodontic office: a practical approach (Payne). 1986; 90:250-2

E

Economics
The economics of dentistry (Dugoni). 1986; 90:78-80
Edgewise arch wire
A comparison of friction forces during simulated canine retraction of a continuous edgewise arch wire (Garner et al). 1986; 90:199-203
Editorials
Editorial. 1986; 90:171
Guest editorials. 1986; 90:82-3, 262-3, 271-2, 361-3
Elastic
The super-elastic property of the Japanese NiTi alloy wire for use in orthodontics (Miura et al). 1986; 90:1-10
Electrical nerve stimulation
Effect of transcutaneous electrical nerve stimulation for controlling pain associated with orthodontic tooth movement (Roth and Thrash). 1986; 90:132-8
Electromyography
Clinical, radiographical and electromyographical study of patients with internal derangement of the TMJ (Isberg et al). 1986; 90:356 (Abst.)
Enamel
Direct bonding comparing a polyacrylic acid and a phosphoric acid technique (Farquhar). 1986; 90:187-94
The effect of fluoride in phosphoric acid on enamel fluoride uptake and the tensile bond strength of an orthodontic bonding resin (Thornton et al). 1986; 90:91-105
Environmental factors
Genetic and environmental factors in the development of so-called pseudo-and true mesioclusions (Nakasima et al). 1986; 90:106-16
Eruption
A review of tooth formation in children with cleft lip/palate (Ranta). 1986; 90:11-8
Esthetics
The perception of facial esthetics in patients requiring orthodontics and orthognathic surgery (Campbell). 1986; 90:355-6 (Abst.)
Soft-tissue profile—Fallacies of hard-tissue standards in treatment planning (Park and Burstone). 1986, 90:52-62
Exercise
A jaw exercise for fibrous ankylosis of the temporomandibular joint (Darveniza and Chapman). 1986; 90:354 (Abst.)
Extraction
Let's take a rational look at permanent second molar extraction (Haas). 1986; 90:361-3 (Guest editorial)
Lower first premolar extraction: a viable alternative? (Clifton) 1986; 90:158-63 (Case rep.)

F

Face
The effect of chin cup therapy on the growth and development of the cranial base and midface (Ritucci and Nanda). 1986; 90:475-83
Facial morphology and obstructive sleep apnea (Lowe et al). 1986; 90:484-91
The perception of facial esthetics in patients requiring orthodontics and orthognathic surgery (Campbell). 1986; 90:355-6 (Abst.)
Projected grid facial photography (Fricker). 1986; 90:354 (Abst.)
Role of parental variables in predicting facial growth after treatment of anterior crossbite (Nakasima and Ichinose). 1986; 90:492-500
Soft-tissue profile—Fallacies of hard-tissue standards in treatment planning (Park and Burstone). 1986; 90:52-62
Face-bow
Simple hinge and semiadjustable articulators in orthognathic surgery (Marko). 1986; 90:37-44
Facial nerve
Influence of excision of the facial and inferior dental nerves on mandibular growth and development (Mostafa et al). 1986; 90:117-21
Fibers
Changes in diameters and mineralization patterns of extrinsic (Sharpey's) fibers of the interdental septum during orthodontic tooth movement (Martinez and Johnson). 1986; 90:174 (Abst.)
Fibrous ankylosis
A jaw exercise for fibrous ankylosis of the temporomandibular joint (Darveniza and Chapman). 1986; 90:354 (Abst.)
First molar
Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36
First premolar
Lower first premolar extraction: a viable alternative? (Clifton) 1986; 90:158-63 (Case rep.)
Fixed appliance
Atlas of orthodontic appliances: fixed and removable (Tenti). 1986; 90:521 (Book rev.)
Floating norms
Floating norms for the ANB angle as guidance for clinical considerations (Jarvinen). 1986; 90:383-7
Fluoride
The effect of fluoride in phosphoric acid on enamel fluoride uptake and the tensile bond strength of an orthodontic bonding resin (Thornton et al). 1986; 90:91-105
Force
Analysis of moment/force ratios in the mechanics of tooth movement (Kusy and Tulloch). 1986; 90:127-31
Biochemical aspects of orthodontic tooth movement (Shanfeld et al). 1986; 90:139-48
Effects of chincap force on the timing and amount of mandibular growth associated with anterior reversed occlusion (Class III malocclusion) during puberty (Mitani and Fukazawa). 1986; 90:454-63
The effects of mandibular retractive force on the growing rat mandible (Asano). 1986; 90:464-74
Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36
Fränkel treatment
A cephalometric study of mandibular changes in modified function regulator (Fränkel) treatment (Haynes). 1986; 90:308-20
Friction
A comparison of friction forces during simulated canine retraction of a continuous edgewise arch wire (Garner et al). 1986; 90:199-203
Function regulator
A cephalometric study of mandibular changes in modified function regulator (Fränkel) treatment (Haynes). 1986; 90:308-20

Functional appliance
The effect of treatment with functional appliance on a pathologic growth pattern of the condyle (Melsen et al). 1986; 90:503-12 (Case rep.)

G

Genetics
Genetic and environmental factors in the development of so-called pseudo-and true mesioclusions (Nakasima et al). 1986; 90:106-16
Glass bead
Glass bead sterilization of orthodontic bands (Smith). 1986; 90:243-9
Glycosaminoglycans
Effects of orthodontic tooth movement on the distribution of glycosaminoglycans of the alveolar bone of the rat: a histochemical study (Martinez and Johnson). 1986; 90:174-5 (Abst.)
Gonial angle
Reproducibility of rotational panoramic radiography: mandibular linear dimensions and angles (Larheim and Svanaes). 1986; 90:45-51
Goniometer
The goniometer (Potgieter et al). 1986; 90:444 (Abst.)
Graft
Maxillary arch expansion in cleft lip and palate infants prior to autogenous alveolar bone graft surgery (Jones et al). 1986; 90:264 (Abst.)
Grant
The Pew Foundation grant and the deregulation of the dental curriculum (Di Paolo). 1986; 90:262-3 (Guest editorial)
Grid
Projected grid facial photography (Fricker). 1986; 90:354 (Abst.)
Scattered radiation grids in cephalometric radiography (Price). 1986; 90:431-6
Growth
Craniofacial growth data for cleft lip patients infancy to 6 years of age: potential applications (Friede et al). 1986; 90:388-409
The effect of chin cup therapy on the growth and development of the cranial base and midface (Ritucci and Nanda). 1986; 90:475-83
The effect of treatment with functional appliance on a pathologic growth pattern of the condyle (Melsen et al). 1986; 90:503-12 (Case rep.)
Effects of chincap force on the timing and amount of mandibular growth associated with anterior reversed occlusion (Class III malocclusion) during puberty (Mitani and Fukazawa). 1986; 90:454-63
The effects of mandibular retractive force on the growing rat mandible (Asano). 1986; 90:464-74
Growth and growth pressure of mandibular condylar and some primary cartilages of the rat in vitro (Copray et al). 1986; 90:19-28
Growth pattern of the mandible: some reflections (Sarnat). 1986; 90:221-33
Influence of excision of the facial and inferior dental nerves on mandibular growth and development (Mostafa et al). 1986; 90:117-21
Maxillary growth following LeFort III advancement surgery in Crouzon, Apert, and Pfeiffer syndromes (Bachmayer et al). 1986; 90:420-30
A polynomial approach to craniofacial growth: description and comparison of adolescent males with normal occlusion and those with untreated Class II malocclusion (Buschang et al). 1986; 90:437-42
Prevalence of tooth agenesis correlated with jaw relationship and dental crowding (Dermaut et al). 1986; 90:204-10
Role of parental variables in predicting facial growth after treatment of anterior crossbite (Nakasima and Ichinose). 1986; 90:492-500

H

Headgear
Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36
Healing
Autotransplantation of cryopreserved tooth in connection with orthodontic treatment (Schwartz and Rank). 1986; 90:67-72 (Case rep.)
Hinge articulator
Simple hinge and semiadjustable articulators in orthognathic surgery (Marko). 1986; 90:37-44
Holographic interferometry
The center of resistance of anterior teeth during intrusion using the laser reflection technique and holographic interferometry (Vanden Bulcke et al). 1986; 90:211-20
Horizontal assessment
Reproducibility of rotational panoramic radiography: mandibular linear dimensions and angles (Larheim and Svanaes). 1986; 90:45-51
Hybrid appliance
Hybrid appliances: a component approach to dentofacial orthopedics (Vig and Vig). 1986; 90:273-85
Hypodontia
Prevalence of tooth agenesis correlated with jaw relationship and dental crowding (Dermaut et al). 1986; 90:204-10
A review of tooth formation in chiidren with cleft lip/palate (Ranta). 1986; 90:11-8

I

Impaction
Transalveolar transplantation of maxillary canines: an alternative to orthodontic treatement in adult patients (Sagne et al). 1986; 90:149-57
In memoriam
Willis Hull Murphey. 1986; 90:86
Incisor
Apical root resorption of upper incisors caused by intrusive tooth movement: a radiographic study (Dermaut and De Munck). 1986; 90:321-6
A review of tooth formation in children with cleft lip/palate (Ranta). 1986; 90:11-8
Income; *see also* **Business principles**
A critique on orthodontic practice studies: some thoughts on the reports of orthodontist income (Waldman). 1986; 90:164-7
Infant
Cleft lip and palate: the orthodontist's youngest patient (Jacobson and Rosenstein). 1986; 90:63-6 (Clin. corner)
Craniofacial growth data for cleft lip patients infancy to 6 years of age: potential applications (Friede et al). 1986; 90:388-409
Maxillary arch expansion in cleft lip and palate infants prior to autogenous alveolar bone graft surgery (Jones et al). 1986; 90:264 (Abst.)

Inferior dental nerve
Influence of excision of the facial and inferior dental nerves on mandibular growth and development (Mostafa et al). 1986; 90:117-21
Informed consent
Informed consent (Pracht). 1986; 90:73-7
Instruction
Development and evaluation of a CAI tutorial in the basics of mixed dentition analysis (Irvine). 1986; 90:175-6 (Abst.)
Intercuspation
Changes in tooth contacts following orthodontic treatment (Durbin and Sadowsky). 1986; 90:375-82
Interdental septum
Changes in diameters and mineralization patterns of extrinsic (Sharpey's) fiber of the interdental septum during orthodontic tooth movement (Martinez and Johnson). 1986; 90:174 (Abst.)
Interferometry
The center of resistance of anterior teeth during intrusion using the laser reflection technique and holographic interferometry (Vanden Bulcke et al). 1986; 90:211-20
Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36
Intermediate splint
Simple hinge and semiadjustable articulators in orthognathic surgery (Marko). 1986; 90:37-44
Intrusion
Apical root resorption of upper incisors caused by intrusive tooth movement: a radiographic study (Dermaut and De Munck). 1986; 90:321-6
The center of resistance of anterior teeth during intrusion using the laser reflection technique and holographic interferometry (Vanden Bulcke et al). 1986; 90:211-20

J

Jaw
Changes in neuromuscular reflexes in the masseter muscles during functional jaw orthopedic treatment in children (Carels and van Steenberghe). 1986; 90:410-9
A jaw exercise for fibrous ankylosis of the temporomandibular joint (Darveniza and Chapman). 1986; 90:354 (Abst.)
Prevalence of tooth agenesis correlated with jaw relationship and dental crowding (Dermaut et al). 1986; 90:204-10
Joint
Clinical, radiographical and electromyographical study of patients with internal derangement of the TMJ (Isberg et al). 1986; 90:356 (Abst.)
A jaw exercise for fibrous ankylosis of the temporomandibular joint (Darveniza and Chapman). 1986; 90:354 (Abst.)
Relationship of the muscles of mastication to the articular disc of the temporomandibular joint (Meyenberg et al). 1986; 90:522 (Abst.)
TMJ internal derangement and arthrosis: surgical atlas (Dolwick and Sanders). 1986; 90:521 (Book rev.)
TMJ tissue reactions following retrusive guidance of the mandible (Isberg and Isacsson). 1986; 90:453-4 (Abst.)

L

Laser
The center of resistance of anterior teeth during intrusion using the laser reflection technique and holographic interferometry (Vanden Bulcke et al). 1986; 90:211-20
Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36
Lateral incisor
A review of tooth formation in children with cleft lip/palate (Ranta). 1986; 90:11-8
LeFort III advancement surgery
Maxillary growth following LeFort III advancement surgery in Crouzon, Apert, and Pfeiffer syndromes (Bachmayer et al). 1986; 90:420-30
Letters
Letter to the editor. 1986; 90:84-5, 172
Liability
Orthodontics and the liability crisis (Buchsieb). 1986; 90:271-2 (Guest editorial)
Lip
Cleft lip and palate: the orthodontist's youngest patient (Jacobson and Rosenstein). 1986; 90:63-6 (Clin. corner)
Craniofacial growth data for cleft lip patients infancy to 6 years of age: potential applications (Friede et al). 1986; 90:388-409
Early treatment of cleft lip and palate: proceedings of the Third International Symposium. 1986; 90:443 (Book rev.)
Maxillary arch expansion in cleft lip and palate infants prior to autogenous alveolar bone graft surgery (Jones et al). 1986; 90:264 (Abst.)
Pressure from the lips on the teeth and malocclusion (Thuer and Ingervall). 1986; 90:234-42
A review of tooth formation in children with cleft lip/palate (Ranta). 1986; 90:11-8

M

Males
A polynomial approach to craniofacial growth: description and comparison of adolescent males with normal occlusion and those with untreated Class II malocclusion (Buschang et al). 1986; 90:437-42
Malocclusion
An American Board of Orthodontics case report (Zizza). 1986; 90:342-9 (Case rep.)
A cephalometric appraisal of nonextraction Begg treatment of Class II malocclusions (Meistrell et al). 1986; 90:286-95
A polynomial approach to craniofacial growth: description and comparison of adolescent males with normal occlusion and those with untreated Class II malocclusion (Buschang et al). 1986; 90:437-42
Effects of chincap force on the timing and amount of mandibular growth associated with anterior reversed occlusion (Class III malocclusion) during puberty (Mitani and Fukazawa). 1986; 90:454-63
Floating norms for the ANB angle as guidance for clinical considerations (Jarvinen). 1986; 90:383-7
A longitudinal study of maturation changes of untreated normal occlusion and malocclusion (Hall). 1986; 90:176 (Abst.)
Pressure from the lips on the teeth and malocclusion (Thuer and Ingervall). 1986; 90:234-42
Mandible
A cephalometric study of mandibular changes in modified function regulator (Fränkel) treatment (Haynes). 1986; 90:308-20
Effects of chincap force on the timing and amount of mandibular growth associated with anterior reversed occlusion (Class III malocclusion) during puberty (Mitani and Fukazawa). 1986; 90:454-63

The effects of mandibular retractive force on the growing rat mandible (Asano). 1986; 90:464-74
Growth and growth pressure of mandibular condylar and some primary cartilages of the rat in vitro (Copray et al). 1986; 90:19-28
Growth pattern of the mandible: some reflections (Sarnat). 1986; 90:221-33
Influence of excision of the facial and inferior dental nerves on mandibular growth and development (Mostafa et al). 1986; 90:117-21
The influence of rapid palatal expansion on mandibular orthodontic expansion (Falk et al). 1986; 90:265 (Abst.)
Reproducibility of rotational panoramic radiography: mandibular linear dimensions and angles (Larheim and Svanaes). 1986; 90:45-51
TMJ tissue reactions following retrusive guidance of the mandible (Isberg and Isacsson). 1986; 90:443-4 (Abst.)

Masseter muscles
Changes in neuromuscular reflexes in the masseter muscles during functional jaw orthopedic treatment in children (Carels and van Steenberghe). 1986; 90:410-9

Mastication
Relationship of the muscles of mastication to the articular disc of the temporomandibular joint (Meyenberg et al). 1986; 90:522 (Abst.)

Maturation; *see also* **Growth**
A longitudinal study of maturation changes of untreated normal occlusion and malocclusion (Hall). 1986; 90:176 (Abst.)

Maxilla
Maxillary arch expansion in cleft lip and palate infants prior to autogenous alveolar bone graft surgery (Jones et al). 1986; 90:264 (Abst.)
Maxillary growth following LeFort III advancement surgery in Crouzon, Apert, and Pfeiffer syndromes (Bachmayer et al). 1986; 90:420-30
The postnatal development of the human maxillary sutural surfaces (Remmelink). 1986; 90:444-5 (Abst.)
Transalveolar transplantation of maxillary canines: an alternative to orthodontic treatement in adult patients (Sagne et al). 1986; 90:149-57

Mechanics
Analysis of moment/force ratios in the mechanics of tooth movement (Kusy and Tulloch). 1986; 90:127-31

Mesioclusions
Genetic and environmental factors in the development of so-called pseudo-and true mesioclusions (Nakasima et al). 1986; 90:106-16

Midface; *see also* **Face**
The effect of chin cup therapy on the growth and development of the cranial base and midface (Ritucci and Nanda). 1986; 90:475-83

Mineralization
Changes in diameters and mineralization patterns of extrinsic (Sharpey's) fibers of the interdental septum during orthodontic tooth movement (Martinez and Johnson). 1986; 90:174 (Abst.)

Mixed dentition analysis
Development and evaluation of a CAI tutorial in the basics of mixed dentition analysis (Irvine). 1986; 90:175-6 (Abst.)

Molar
Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36
The importance of banding the second permanent molars (Andreasen). 1986; 90:501-2 (Clin. corner)
Let's take a rational look at permanent second molar extraction (Haas). 1986; 90:361-3 (Guest editorial)

Moment/force ratios
Analysis of moment/force ratios in the mechanics of tooth movement (Kusy and Tulloch). 1986; 90:127-31

Morphogenetic analysis
Genetic and environmental factors in the development of so-called pseudo-and true mesioclusions (Nakasima et al). 1986; 90:106-16

Morphology
Craniocervical postural relations and craniofacial morphology in 30 blind subjects (Fjellvang and Solow). 1986; 90:327-34
Facial morphology and obstructive sleep apnea (Lowe et al). 1986; 90:484-91
Tooth wear and condylar morphology (Owen et al). 1986; 90:444 (Abst.)

Movement
Analysis of moment/force ratios in the mechanics of tooth movement (Kusy and Tulloch). 1986; 90:127-31
Apical root resorption of upper incisors caused by intrusive tooth movement: a radiographic study (Dermaut and De Munck). 1986; 90:321-6
Effect of transcutaneous electrical nerve stimulation for controlling pain associated with orthodontic tooth movement (Roth and Thrash). 1986; 90:132-8
Effects of orthodontic tooth movement on the distribution of glycosaminoglycans of the alveolar bone of the rat: a histochemical study (Martinez and Johnson). 1986; 90:174-5 (Abst.)

Multiplane cephalometric analysis
Basilar multiplane cephalometric analysis (Remmelink) (Letter). 1986; 90:84-5

Muscles
Changes in neuromuscular reflexes in the masseter muscles during functional jaw orthopedic treatment in children (Carels and van Steenberghe). 1986; 90:410-9
Relationship of the muscles of mastication to the articular disc of the temporomandibular joint (Meyenberg et al). 1986; 90:522 (Abst.)

Myofascial pain
Myofascial pain and dysfunction in stressful and non-stressful periods (Meeks et al). 1986; 90:445 (Abst.)

N

Nerve
Effect of transcutaneous electrical nerve stimulation for controlling pain associated with orthodontic tooth movement (Roth and Thrash). 1986; 90:132-8
Influence of excision of the facial and inferior dental nerves on mandibular growth and development (Mostafa et al). 1986; 90:117-21

Neuromuscular reflexes
Changes in neuromuscular reflexes in the masseter muscles during functional jaw orthopedic treatment in children (Carels and van Steenberghe). 1986; 90:410-9

Neurotrophism
Influence of excision of the facial and inferior dental nerves on mandibular growth and development (Mostafa et al). 1986; 90:117-21

Newborn; *see also* **Infant**
Cleft lip and palate: the orthodontist's youngest patient (Jacobson and Rosenstein). 1986; 90:63-6 (Clin. corner)
Nickel-titanium alloy wire
The super-elastic property of the Japanese NiTi alloy wire for use in orthodontics (Miura et al). 1986; 90:1-10
Nitinol
A comparison of friction forces during simulated canine retraction of a continuous edgewise arch wire (Garner et al). 1986; 90:199-203
Nonextraction
A cephalometric appraisal of nonextraction Begg treatment of Class II malocclusions (Meistrell et al). 1986; 90:286-95
Nucleotide
Biochemical aspects of orthodontic tooth movement (Shanfeld et al). 1986; 90:139-48

O

Obituary
In memoriam: Willis Hull Murphey. 1986; 90:86
Obstructive sleep apnea
Facial morphology and obstructive sleep apnea (Lowe et al). 1986; 90:484-91
Three-dimensional CT reconstructions of tongue and airway in adult subjects with obstructive sleep apnea (Lowe et al). 1986; 90:364-74
Occlusion
An American Board of Orthodontics case report (Zizza). 1986; 90:342-9 (Case Rep.)
A cephalometric appraisal of nonextraction Begg treatment of Class II malocclusions (Meistrell et al). 1986; 90:286-95
Changes in tooth contacts following orthodontic treatment (Durbin and Sadowsky). 1986; 90:375-82
Effects of chincap force on the timing and amount of mandibular growth associated with anterior reversed occlusion (Class III malocclusion) during puberty (Mitani and Fukazawa). 1986; 90:454-63
Floating norms for the ANB angle as guidance for clinical considerations (Jarvinen). 1986; 90:383-7
A longitudinal study of maturation changes of untreated normal occlusion and malocclusion (Hall). 1986; 90:176 (Abst.)
A polynomial approach to craniofacial growth: description and comparison of adolescent males with normal occlusion and those with untreated Class II malocclusion (Buschang et al). 1986; 90:437-42
Pressure from the lips on the teeth and malocclusion (Thuer and Ingervall). 1986; 90:234-42
Oligodontia
Prevalence of tooth agenesis correlated with jaw relationship and dental crowding (Dermaut et al). 1986; 90:204-10
Orthodontic practice
The AAO future plan. 1986; 90:451-3 (AAO)
Business principles in an orthodontic practice. Part I (Shia). 1986; 90:253-61
Business principles in an orthodontic practice. Part II (Shia). 1986; 90:513-8
A critique on orthodontic practice studies: some thoughts on the reports of orthodontist income (Waldman). 1986; 90:164-7
Principles and practice of orthodontics (Mills). 1986; 90:522 (Book rev.)
Orthodontics
Orthodontics: state of the art, essence of the science (Graber). 1986; 90:173-4 (Book rev.)
Orthognathic surgery
Simple hinge and semiadjustable articulators in orthognathic surgery (Marko). 1986; 90:37-44

P

Pain
Effect of transcutaneous electrical nerve stimulation for controlling pain associated with orthodontic tooth movement (Roth and Thrash). 1986; 90:132-8
Myofascial pain and dysfunction in stressful and non-stressful periods (Meeks et al). 1986; 90:445 (Abst.)
Palate
Cleft lip and palate: the orthodontist's youngest patient (Jacobson and Rosenstein). 1986; 90:63-6 (Clin. corner)
Early treatment of cleft lip and palate: proceedings of the Third International Symposium. 1986; 90:443 (Book rev.)
The influence of rapid palatal expansion on mandibular orthodontic expansion (Falk et al). 1986; 90:265 (Abst.)
Maxillary arch expansion in cleft lip and palate infants prior to autogenous alveolar bone graft surgery (Jones et al). 1986; 90:264 (Abst.)
A review of tooth formation in children with cleft lip/palate (Ranta). 1986; 90:11-8
Panoramic radiography
Reproducibility of rotational panoramic radiography: mandibular linear dimensions and angles (Larheim and Svanaes). 1986; 90:45-51
Parents
Role of parental variables in predicting facial growth after treatment of anterior crossbite (Nakasima and Ichinose). 1986; 90:492-500
Pedodontics
A manual of pedodontics (Andlaw and Rock). 1986; 90:443 (Book rev.)
Permanent molar
The importance of banding the second permanent molars (Andreasen). 1986; 90:501-2 (Clin. corner)
Pew Foundation
The Pew Foundation grant and the deregulation of the dental curriculum (Di Paolo). 1986; 90:262-3 (Guest editorial)
Pfeiffer syndrome
Maxillary growth following LeFort III advancement surgery in Crouzon, Apert, and Pfeiffer syndromes (Bachmayer et al). 1986; 90:420-30
Phosphoric acid
Direct bonding comparing a polyacrylic acid and a phosphoric acid technique (Farquhar). 1986; 90:187-94
The effect of fluoride in phosphoric acid on enamel fluoride uptake and the tensile bond strength of an orthodontic bonding resin (Thornton et al). 1986; 90:91-105
Photography
Projected grid facial photography (Fricker). 1986; 90:354 (Abst.)
Polyacrylic acid
Direct bonding comparing a polyacrylic acid and a phosphoric acid technique (Farquhar). 1986; 90:187-94
Polynomial regression
A polynomial approach to craniofacial growth: description and comparison of adolescent males with normal occlusion and those with untreated Class II malocclusion (Buschang et al). 1986; 90:437-42

Positioners
Changes in tooth contacts following orthodontic treatment (Durbin and Sadowsky). 1986; 90:375-82
Postnatal development
The postnatal development of the human maxillary sutural surfaces (Remmelink). 1986; 90:444-5 (Abst.)
Postseparation
Effect of transcutaneous electrical nerve stimulation for controlling pain associated with orthodontic tooth movement (Roth and Thrash). 1986; 90:132-8
Postural relations
Craniocervical postural relations and craniofacial morphology in 30 blind subjects (Fjellvang and Solow). 1986; 90:327-34
Practice
Business principles in an orthodontic practice. Part I (Shia). 1986; 90:253-61
Business principles in an orthodontic practice. Part II (Shia). 1986; 90:513-8
A critique on orthodontic practice studies: some thoughts on the reports of orthodontist income (Waldman). 1986; 90:164-7
Principles and practice of orthodontics (Mills). 1986; 90:522 (Book rev.)
Premolar
Lower first premolar extraction: a viable alternative? (Clifton) 1986; 90:158-63 (Case rep.)
Pressure
Pressure from the lips on the teeth and malocclusion (Thuer and Ingervall). 1986; 90:234-42
Primary cartilage
Growth and growth pressure of mandibular condylar and some primary cartilages of the rat in vitro (Copray et al). 1986; 90:19-28
Profile changes
Profile changes in the child and young adolescent (Hoskin). 1986; 90:356 (Abst.)
Prostaglandin
Biochemical aspects of orthodontic tooth movement (Shanfeld et al). 1986; 90:139-48
The effect of prostaglandin E_2 on the intact midsagittal suture in the rat (Timmins). 1986; 90:176 (Abst.)
Pseudomesioclusion
Genetic and environmental factors in the development of so-called pseudo-and true mesioclusions (Nakasima et al). 1986; 90:106-16

R

Radiation
Scattered radiation grids in cephalometric radiography (Price). 1986; 90:431-6
Radiography
Apical root resorption of upper incisors caused by intrusive tooth movement: a radiographic study (Dermaut and De Munck). 1986; 90:321-6
Clinical, radiographical and electromyographical study of patients with internal derangement of the TMJ (Isberg et al). 1986; 90:356 (Abst.)
Reproducibility of rotational panoramic radiography: mandibular linear dimensions and angles (Larheim and Svanaes). 1986; 90:45-51
Scattered radiation grids in cephalometric radiography (Price). 1986; 90:431-6
Reconstruction
Three-dimensional CT reconstructions of tongue and airway in adult subjects with obstructive sleep apnea (Lowe et al). 1986; 90:364-74
Reflex
Changes in neuromuscular reflexes in the masseter muscles during functional jaw orthopedic treatment in children (Carels and van Steenberghe). 1986; 90:410-9
Regulator
A cephalometric study of mandibular changes in modified function regulator (Fränkel) treatment (Haynes). 1986; 90:308-20
Remodeling
Biochemical aspects of orthodontic tooth movement (Shanfeld et al). 1986; 90:139-48
Removable appliance
Atlas of orthodontic appliances: fixed and removable (Tenti). 1986; 90:521 (Book rev.)
Resin
The effect of fluoride in phosphoric acid on enamel fluoride uptake and the tensile bond strength of an orthodontic bonding resin (Thornton et al). 1986; 90:91-105
Resistance
Analysis of moment/force ratios in the mechanics of tooth movement (Kusy and Tulloch). 1986; 90:127-31
The center of resistance of anterior teeth during intrusion using the laser reflection technique and holographic interferometry (Vanden Bulcke et al). 1986; 90:211-20
Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36
Resorption
Apical root resorption of upper incisors caused by intrusive tooth movement: a radiographic study (Dermaut and De Munck). 1986; 90:321-6
Retainers
Changes in tooth contacts following orthodontic treatment (Durbin and Sadowsky). 1986; 90:375-82
Retraction
A comparison of friction forces during simulated canine retraction of a continuous edgewise arch wire (Garner et al). 1986; 90:199-203
The effects of mandibular retractive force on the growing rat mandible (Asano). 1986; 90:464-74
Retrusive guidance
TMJ tissue reactions following retrusive guidance of the mandible (Isberg and Isacsson). 1986; 90:453-4 (Abst.)
Reviews
Book reviews. 1986; 90:87, 173-4, 264, 443, 521-2
Root
Apical root resorption of upper incisors caused by intrusive tooth movement: a radiographic study (Dermaut and De Munck). 1986; 90:321-6
Rotation
Analysis of moment/force ratios in the mechanics of tooth movement (Kusy and Tulloch). 1986; 90:127-31
Rotational panoramic radiography
Reproducibility of rotational panoramic radiography: mandibular linear dimensions and angles (Larheim and Svanaes). 1986; 90:45-51

S

Sagittal malocclusions
Floating norms for the ANB angle as guidance for clinical considerations (Jarvinen). 1986; 90:383-7

Second molar
The importance of banding the second permanent molars (Andreasen). 1986; 90:501-2 (Clin. corner)
Let's take a rational look at permanent second molar extraction (Haas). 1986; 90:361-3 (Guest editorial)
Self-concept
A comparison of the self-concept of orthodontic patients before and after treatment (Richards). 1986; 90:175 (Abst.)
Semiadjustable articulator
Simple hinge and semiadjustable articulators in orthognathic surgery (Marko). 1986; 90:37-44
Septum
Changes in diameters and mineralization patterns of extrinsic (Sharpey's) fibers of the interdental septum during orthodontic tooth movement (Martinez and Johnson). 1986; 90:174 (Abst.)
Sharpey's fibers
Changes in diameters and mineralization patterns of extrinsic (Sharpey's) fibers of the interdental septum during orthodontic tooth movement (Martinez and Johnson). 1986; 90:174 (Abst.)
Shear bond strength
Direct bonding comparing a polyacrylic acid and a phosphoric acid technique (Farquhar). 1986; 90:187-94
Sleep apnea
Facial morphology and obstructive sleep apnea (Lowe et al). 1986; 90:484-91
Three-dimensional CT reconstructions of tongue and airway in adult subjects with obstructive sleep apnea (Lowe et al). 1986; 90:364-74
Soft tissue
Longitudinal evaluation of soft tissue profiles, thirteen years, post-orthodontics (Thompson et al). 1986; 90:264-5 (Abst.)
Soft-tissue profile: fallacies of hard-tissue standards in treatment planning (Park and Burstone). 1986; 90:52-62
Space closure
Asymmetric space closure (Gianelly et al). 1986; 90:335-41 (Clin. corner)
Speckle interferometry
Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90: 29-36
Splint
Simple hinge and semiadjustable articulators in orthognathic surgery (Marko). 1986; 90:37-44
Stainless steel
A comparison of friction forces during simulated canine retraction of a continuous edgewise arch wire (Garner et al). 1986; 90:199-203
Sterilization
Glass bead sterilization of orthodontic bands (Smith). 1986; 90:243-9
Sterilization and disinfection in the orthodontic office: a practical approach (Payne). 1986; 90:250-2
Stress
Myofascial pain and dysfunction in stressful and non-stressful periods (Meeks et al). 1986; 90:445 (Abst.)
Suture
The effect of prostaglandin E_2 on the intact midsagittal suture in the rat (Timmins). 1986; 90:176 (Abst.)
The postnatal development of the human maxillary sutural surfaces (Remmelink). 1986; 90:444-5 (Abst.)

T

Temporomandibular joint
Clinical, radiographical and electromyographical study of patients with internal derangement of the TMJ (Isberg et al). 1986; 90:356 (Abst.)
A jaw exercise for fibrous ankylosis of the temporomandibular joint (Darveniza and Chapman). 1986; 90:354 (Abst.)
Relationship of the muscles of mastication to the articular disc of the temporomandibular joint (Meyenberg et al). 1986; 90:522 (Abst.)
TMJ internal derangement and arthrosis: surgical atlas (Dolwick and Sanders). 1986; 90:521 (Book rev.)
TMJ tissue reactions following retrusive guidance of the mandible (Isberg and Isacsson). 1986; 90:443-4 (Abst.)
Tensile bond strength
The effect of fluoride in phosphoric acid on enamel fluoride uptake and the tensile bond strength of an orthodontic bonding resin (Thornton et al). 1986; 90:91-105
Timing
Effects of chincap force on the timing and amount of mandibular growth associated with anterior reversed occlusion (Class III malocclusion) during puberty (Mitani and Fukazawa). 1986; 90:454-63
Titanium
A comparison of friction forces during simulated canine retraction of a continuous edgewise arch wire (Garner et al). 1986; 90:199-203
Tomography
Three-dimensional CT reconstructions of tongue and airway in adult subjects with obstructive sleep apnea (Lowe et al). 1986; 90:364-74
Tongue
Three-dimensional CT reconstructions of tongue and airway in adult subjects with obstructive sleep apnea (Lowe et al). 1986; 90:364-74
Tooth contacts
Changes in tooth contacts following orthodontic treatment (Durbin and Sadowsky). 1986; 90:375-82
Tooth formation
A review of tooth formation in children with cleft lip/palate (Ranta). 1986; 90:11-8
Tooth movement
Analysis of moment/force ratios in the mechanics of tooth movement (Kusy and Tulloch). 1986; 90:127-31
Apical root resorption of upper incisors caused by intrusive tooth movement: a radiographic study (Dermaut and De Munck). 1986; 90:321-6
Biochemical aspects of orthodontic tooth movement (Shanfeld et al). 1986; 90:139-48
Changes in diameters and mineralization patterns of extrinsic (Sharpey's) fibers of the interdental septum during orthodontic tooth movement (Martinez and Johnson). 1986; 90:174 (Abst.)
Effect of transcutaneous electrical nerve stimulation for controlling pain associated with orthodontic tooth movement (Roth and Thrash). 1986; 90:132-8
Effects of orthodontic tooth movement on the distribution of glycosaminoglycans of the alveolar bone of the rat: a histochemical study (Martinez and Johnson). 1986; 90:174-5 (Abst.)
Experimental determination of the center of resistance of the upper

T

first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36

Tooth wear

Tooth wear and condylar morphology (Owen et al). 1986; 90:444 (Abst.)

Toothbrushing

Toothbrushing and transient bacteremia in patients undergoing orthodontic treatment (Chung et al). 1986; 90:181-7

Tooth-periodontal healing

Autotransplantation of cryopreserved tooth in connection with orthodontic treatment (Schwartz and Rank). 1986; 90:67-72 (Case rep.)

Traction

Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36

Transalveolar transplantation

Transalveolar transplantation of maxillary canines: an alternative to orthodontic treatement in adult patients (Sagne et al). 1986; 90:149-57

Transcutaneous electrical nerve stimulation

Effect of transcutaneous electrical nerve stimulation for controlling pain associated with orthodontic tooth movement (Roth and Thrash). 1986; 90:132-8

Transplantation

Transalveolar transplantation of maxillary canines: an alternative to orthodontic treatement in adult patients (Sagne et al). 1986; 90:149-57

Tutorial

Development and evaluation of a CAI tutorial in the basics of mixed dentition analysis (Irvine). 1986; 90:175-6 (Abst.)

U

Upper first molar

Experimental determination of the center of resistance of the upper first molar in a macerated, dry human skull submitted to horizontal headgear traction (Dermaut et al). 1986; 90:29-36

Upper incisor

Apical root resorption of upper incisors caused by intrusive tooth movement: a radiographic study (Dermaut and De Munck). 1986; 90:321-6

A review of tooth formation in children with cleft lip/palate (Ranta). 1986; 90:11-8

V

Vertical assessment

Reproducibility of rotational panoramic radiography: mandibular linear dimensions and angles (Larheim and Svanaes). 1986; 90:45-51

W

Wear

Tooth wear and condylar morphology (Owen et al). 1986; 90:444 (Abst.)

Wire; *see also* **Arch wire**

A comparison of friction forces during simulated canine retraction of a continuous edgewise arch wire (Garner et al). 1986; 90:199-203

Comparative range of orthodontic wires (Ingram et al). 1986; 90:296-307

The super-elastic property of the Japanese NiTi alloy wire for use in orthodontics (Miura et al). 1986; 90:1-10
